BOOKS

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1. *Staphylococcus aureus* (ATCC 12228) was grown in tryptic soy broth (TSB) (Difco) supplemented with 0.5% yeast extract (Difco) and 0.5% glucose (Difco) at 37°C. The cells were harvested by centrifugation at 5000g for 10 min and washed with distilled water. The cells were then resuspended in distilled water and the suspension was adjusted to a concentration of 1×10^8 cells/ml.
